Dan Borougian, an award winning photographer with more than 40 years of experience, will share those four decades of distinguished creativity during which his process evolved from 35mm film to exceptionally versatile and innovative use of digital photography. This impressive portfolio encompasses a wide array of subjects from macro to landscapes. It is notable for a strong sense of contrast and drama. Through slides and framed photographs, Dan will give an overview of the difference between film and digital photography, give us a better understanding of what a digital camera can do, the kind of camera you should buy, and the wonderful new world of PhotoShop!

Since he bought his first camera in 1963, Dan has won numerous awards. His work has been published in many photographic magazines and has been exhibited in St. Augustine, Florida and the Hammond Museum, the Katonah Museum and the Salmagundi Club on Fifth Avenue in New York City. He has won awards at all but one of the Flagler County Art League shows for the last ten years and many more at the St. Augustine Art Association since 1999. Most recently, he garnered the FCAL Poster award at our spring Art in the Park show. Along with awards from Popular Photography magazine, Nikon and Olympus competitions, he has also been a judge for the Jacksonville photo competition.
