Carol Frye - Acrylic Workshop

Having painted landscapes and still life for many years in a variety of mediums, my work has evolved from realism to abstraction, miniatures to murals. Born in Pennsylvania, majored in art education and moved on. Marriage, motherhood, years of travel with my now retired military husband, and several personal challenges gave strength to the foundation of both life and art.

Strong paintings with vibrant strokes of color, bold calligraphy and brilliant foils invite you to share my passion for the painting process. As a multimedia artist, most current works are both experimental and intuitive. For me, painting is really a spiritual process and each painting seems to flow and grow, layer upon layer quite naturally. Now a "Layerist" by nature, my work continues to build as experience with various media and subject matter evolves. Recent works step toward the subdued, becoming deeper on many levels. *(Questions??
